

# Website Development Agreement

Between us, Campus On Fire, and you, <your name>

## Summary:

We will always do our best to fulfill your needs and meet your goals, but sometimes it is best to have a few simple things written down so that we both know what is what, who should do what and what happens if stuff goes wrong. In this contract you won't find complicated legal terms or large passages of unreadable text. We have no desire to trick you into signing something that you might later regret. We do want what's best for the safety of both parties, now and in the future.

## In short

You, <your name>, located at <your business address> are hiring us, Campus On Fire, located in Brooklyn, NY to develop a web site for the total fixed price of <price>.

## What do both parties agree to do?

You: You have the authority to enter into this contract on behalf of yourself, your company or your organization. You'll give us the assets and information we tell you we need to complete the project. You'll do this when we ask and provide it in the formats we need. You'll review our work, provide feedback and approval in a timely manner too. Deadlines work two ways, so you'll also be bound by dates we set together. You also agree to stick to the payment schedule set out at the end of this contract.

Us: We have the experience and ability to do everything we've agreed with you and we'll do it all in a professional and timely manner. We'll endeavor to meet every deadline that's set and on top of that we'll maintain the confidentiality of everything you give us.

## Termination

You are free to terminate this agreement anytime for any reason.

## Deadline

We will try our best to complete initial development within 2 months from mutually agreed start date. Please be understanding if there are any unlikely events or force majeure that we may finish our work few weeks after previously agreed deadline.

## Website

We will do complete ground up web application development including architecture, infrastructure setup for both staging and production environments, acceptance testing and mobile apps for iOS and Android.

## Browser testing

Browser testing no longer means attempting to make a website look the same in browsers of different capabilities or on devices with different size screens. It does mean ensuring that a person's experience should be appropriate to the capabilities of a browser or device.

## Mobile browser testing

Testing using popular smaller screen devices is essential in ensuring that a person's experience is appropriate to the capabilities of the device they're using. We will test the app in:

iOS 9: Safari, Google Chrome

Android: Google Chrome

We won't test with Blackberry, Opera Mini/Mobile, specific Android devices, Windows or other mobile browsers.

## Payment schedule

We're sure you understand how important it is for self-employed individuals that you pay the invoices that we send you promptly. As we're also sure you'll want to stay friends, you agree to stick tight to the following payment schedule.

Payment Due Date	Amount, USD
<Date 1>	<Amount 1>
<Date 2>	<Amount 2>
<Date 3>	<Amount 3>
<Date 4>	<Amount 4>

We issue invoices electronically. Our payment term is next day from the date of invoice by ACH payments system. The appropriate bank account details will be printed on our electronic invoices.

## But where's all the horrible small print?

Just like a parking ticket, you can't transfer this contract to anyone else without our permission. This contract stays in place and need not be renewed. If for some reason one part of this contract becomes invalid or unenforceable, the remaining parts of it remain in place.

Although the language is simple, the intentions are serious and this contract is a legal document under exclusive jurisdiction of New York courts.
